

Boilerplate

Bowmark Capital (“Bowmark”) is a leading private equity investment firm specialising in technology, data and services companies. Established in 1997, Bowmark manages funds of over £2 billion and has made more than 50 investments. Bowmark’s focus is on four core areas of the technology sector: data and insight, managed IT services, software, and technology-enabled business services. The firm invests up to £300 million per transaction through majority or significant minority stakes in companies with compelling growth prospects, that are seeking a supportive, value-added partner to help them realise their ambitions. With our strategic support and capital, we work in partnership with management teams to accelerate growth and build exceptional businesses. Bowmark Capital LLP is authorised and regulated by the Financial Conduct Authority.
